

Iran's **Central Banker** is a **Sanctioned Terrorist**

As the Financial Action Task Force (FATF) convenes in Paris from June 24 thru June 29, we urge members to blacklist Iran and re-impose effective countermeasures to stymie the Islamic Republic's continued sponsorship of terrorism.

The fact that Valiollah Seif, the governor of the Central Bank of Iran, has recently been sanctioned as a specially designated global terrorist by the United States as a result of his funneling money to Hezbollah on behalf of the Iranian government is the latest reminder that Tehran continues to be the world's leading state sponsor of terrorism. Iran's supreme leader has also challenged the integrity of the FATF, and signaled his reluctance to meet the conditions of its action plan to remove Tehran from its list of high-risk jurisdictions.

Rather than moderating its behavior and becoming a nation worthy of foreign investment since the adoption of the Joint Comprehensive Plan of Action (JCPOA), the regime in Tehran continues to fund terrorist proxies, fomenting violence and instability throughout the Middle East.

The FATF and the international community must not reward Iran's continued bad behavior.
