

A NUCLEAR DEAL WITH IRAN IS SET TO BE FINALIZED THIS MONTH, AND DEMOCRATS AND REPUBLICANS, ISRAEL, AND OUR ARAB ALLIES ARE CONCERNED THAT

U.S. CONCESSIONS TO IRAN GO TOO FAR.

- ▶ Iran's Nuclear Infrastructure Will Remain Intact
- ▶ Iran Retains its Underground and "Hardened" Fordow Nuclear Facility
- ▶ Iran Can Engage in Further Research and Development on Advanced Centrifuges
- ▶ Iran Nuclear Restrictions Will End Over The Next 10–15 Years

NOW, IRAN SAYS NO ON FULL NUCLEAR INSPECTIONS, ACCOUNTABILITY AND TRANSPARENCY.

- X** No to allowing the International Atomic Energy Agency to interview scientists and officials, and visit military facilities as part of its investigation of Iran's previous work on nuclear weapons development.
- X** No to "challenge inspections" of any suspected nuclear facilities – including military facilities – within a timely manner.
- X** No to a phased termination of existing international sanctions to match Iran's compliance with its obligations.
- X** No to the immediate re-imposition of economic sanctions should Iran be found to violate the agreement.

"Iran's supreme leader on Wednesday ruled out allowing international inspectors to interview Iranian nuclear scientists as part of any potential deal on its nuclear program, and reiterated that the country would not allow the inspection of military sites."
The New York Times
5/20/15

The United States Must Not Concede These Points.
IT'S DANGEROUS TO AMERICA, AND THE WORLD.

WE CAN'T TRUST IRAN. WE CAN'T SETTLE FOR MORE CONCESSIONS.
