Subject: Formal Request for Removal of SEAMULL/SEA WISE from the UANI List
Dear Sir,

We respectfully submit this appeal regarding the listing of the vessel *Sea Rock* in [The Ghost Armada: The List Scrapped Violators](#) published on your website.

It has come to our attention that the vessels were reported on the list .

Accordingly, we believe the current inclusion of the vessels on the UANI list is not a fair reflection of its present status and trading practices.

We would like to clarify the following for your kind consideration:

1. Ownership and Authority

- The vessels Since that date of registration, all operations of the vessel have been conducted strictly under recognized legal authority and in accordance with international maritime conventions.

2. Compliance with International Regulations

- Since assuming ownership, we have ensured the vessel operates only within lawful trading routes and jurisdictions.
- The vessel has not engaged in any trade or activities with sanctioned regions, entities, or authorities.
- Full compliance with IMO, Flag State, and Class requirements is always maintained.

Considering the above, we kindly request **the removal of SEAMULL/SEA WISE from the UANI list.**

This will ensure that the vessel's present ownership and operational record are correctly represented and not associated with past activities prior to our management.

We highly appreciate your understanding, guidance, and support in this matter and remain at your disposal should you require further information or documentation.

Capt. Ashraf Hussein
